

WE MADE IT EASY

The HomePlow is perfect for homeowners that need to remove snow from a long driveway and don't want to spend a lot of time doing it. It quickly attaches to your SUV or light pickup. With a wide variety of models, we have a HomePlow to fit every application and budget.

Attach the plow to your SUV or light pickup quickly

All HomePlows feature Quick-Link™, an easy-to-use mounting system that slides into a Class 3, 2-inch front receiver hitch, which is sold separately. This allows you to attach/detach the plow in under a minute without tools. The front receiver hitch must be installed on your vehicle prior to using the HomePlow. Visit www.thehomeplow.com/WhatItFits.aspx.

Stay warm and dry while you plow

Auto-Angling™ is the difference

Many HomePlow models angle without any power-supplied help. Auto-Angling™ allows the blade to angle left or right when it encounters the weight of the snow on one side.

Three levels available

Good: HomePlow Basic™
— Affordable convenience

Better: Pre-Assembled HomePlow (on wheels)
— Easy to mount, use and store

Best: The Full-Powered HomePlow™
— The ultimate in convenience and ruggedness

HOMEFLOW Basic™ – Affordable convenience

GOOD

The HomeFlow Basic is an economical plow for the person that wants to move snow quicker than other snow removal methods.

HomeFlow Basic models feature:

- Steel blade is 18" high x 6'8" long
- Packaged in an easy-to-transport carton
- Assembles in under one hour using household tools
- Auto-Angling for blade right/left movement when it encounters the weight of the snow

Easy-to-transport carton fits in an SUV or pick-up

All HomeFlow models feature the Quick-Link™ mounting system for easy on/off. Dura Slick™ paint allows for better snow rolling action, and plow markers help to locate the edge of the blade when plowing.

Two Models Available

- Model/Part #23150 - Manual lift to raise/lower the blade \$1,299*
- Model/Part #23250 - Electric lift with wireless controller for up/down blade motion \$1,699*

*Sale price may vary by retailer and does not include shipping, taxes and installation.

Pre-Assembled HOMEFLOW™ (on wheels) – Easy to mount, use and store

BETTER

A step up from the HomeFlow Basic is the fully-assembled HomeFlow featuring electric or hydraulic up/down motion. This model provides additional levels of convenience and plowing performance while allowing the driver to stay warm inside their vehicle.

Shown with optional deflector

The pre-assembled HomeFlow on wheels shares the same features as the HomeFlow Basic but includes the following upgrades:

- Steel blade is 22" high x 6'8" long
- Comes pre-assembled in a crate
- Integrated wheels for easy on/off and storage
- Auto-Angling for blade right/left movement when it encounters the weight of the snow

Like the HomeFlow Basic and full-powered HomeFlow models, this model features the Quick-Link™ mounting system for easy on/off. Dura Slick™ paint allows for better snow rolling action, and plow markers help to locate the edge of the blade when plowing.

Two Models Available

- Model/Part #24000 - Electric lift with wireless controller for up/down blade motion \$1,999*
- Model/Part #25000 - Hydraulic lift with wireless or wired controller for up/down blade motion \$2,499*

*Sale price may vary by retailer and does not include shipping, taxes and installation.

The Full-Powered HOMEFLOW™ – The ultimate in convenience and ruggedness

BEST

The ultimate in plowing performance and convenience is the full-powered HomeFlow. Using a hydraulic lift and wired controller, this HomeFlow model operates just like a conventional commercial plow for all up/down, left right blade movements, plus two blade sizes are offered.

This HomeFlow includes features of other HomeFlow models with the added convenience of full-hydraulic control of the blade.

- Steel blade sizes: 22" high x 6'8" long or 22" high x 7'6" long
- Comes pre-assembled in a crate
- Integrated wheels for easy on/off and storage
- Full hydraulic control for up/down and left/right blade movement from the comfort of your vehicle
- Longer model is perfect for larger areas and can be used on light-duty pickups

Like the HomeFlow Basic and pre-assembled HomeFlow models, this model features the Quick-Link™ mounting system for easy on/off. Dura Slick™ paint allows for better snow rolling action, and plow markers help to locate the edge of the blade when plowing.

Two Models Available

- Model/Part #26000 - Hydraulic lift with wired controller that operates like a commercial plow for up/down and left/right blade motion. Blade length - 6'8" \$2,999*
- Model/Part #26500 - Blade length - 7'6" \$3,199*

*Sale price may vary by retailer and does not include shipping, taxes and installation.
