

# homePLOW™

Move Snow Like a Pro.

✓✓✓ by meyer

Easy-to-use snowplow for homeowners

## A Clear Drive and Peace of Mind

The HomePlow offers a fast, safe and effective way for homeowners to move snow on their terms. The HomePlow conveniently attaches to a SUV, light pickup, ATV or UTV and effortlessly pushes snow while the driver stays warm and comfortable inside the vehicle.

### Why Choose HomePlow

**Affordable. Efficient. Convenient.** With the HomePlow, relying on contractors is a thing of the past. Snow can quickly be moved as required, eliminating expensive seasonal contracts.

**Safety First.** Shoveling and snow blowing require exposure to cold temperatures and can be labor intensive. The HomePlow makes it easy to plow from the comfort of a warm driver's seat.

**Space Saving Storage.** Unlike other plows, the HomePlow includes castor wheels\* and stores neatly out of the way when detached from the vehicle.

**Easy Attachment.** The HomePlow features Quick Link™, an easy-to-use mounting system that enables plow attachment and detachment in under a minute, without the use of equipment or tools.

The HomePlow is not designed for commercial/vocational applications. Use on approved 1/2 ton pick-up trucks, SUVs, ATVs and UTVs only. Scan the code or visit [thehomeplow.com/whatitfits](https://thehomeplow.com/whatitfits) to learn more.

# Three Levels of Snow Plowing Power

## HomePlow Basic™

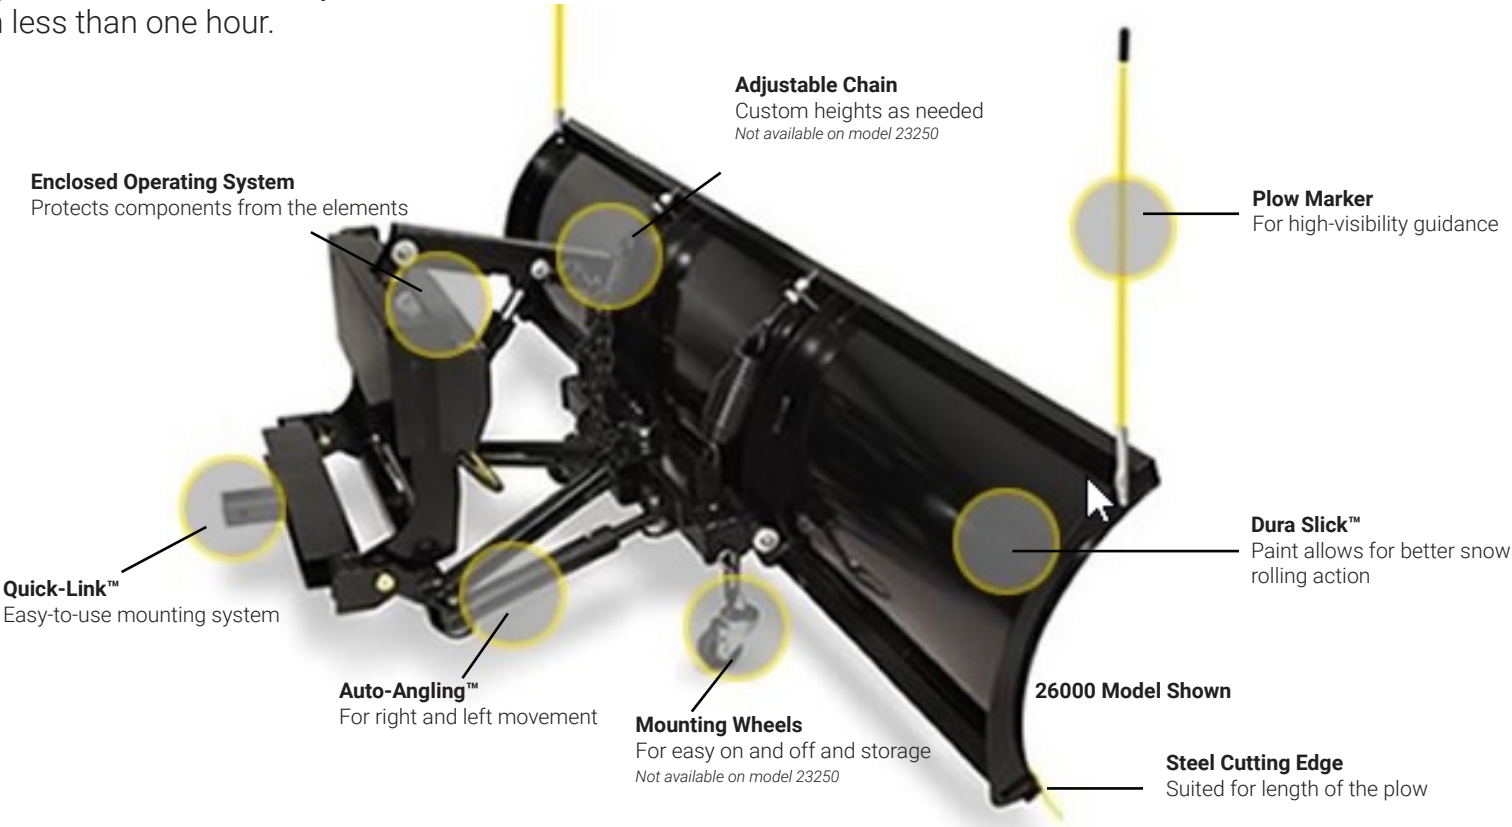

The most affordable HomePlow model features Auto-Angling™ for right and left movement upon force from the weight of the snow. It includes a locking pin for stationary operation and effortlessly assembles in less than one hour.

## Electric Lift HomePlow

This model includes all of the features of the HomePlow Basic, with a 22" moldboard and integrated wheels for easier installation and storage.

## The Full-Powered HomePlow™

This model provides the ultimate in plowing performance. It offers full-hydraulic control for up and down, and left and right movement using a wired controller.

Model	Basic 23250	Electric Lift 24000	Full-Powered	
			26500	26000
Dimensions (Length x Height)	6'8" x 18"	6'8" x 22"	6'8" x 22"	7'6" x 22"
Operation	Electric Lift		Full-Hydraulic Lift	
Angling	Auto with Locking Pin		Hydraulic	
Controller	Wireless		Wired	
Wheels	No	Yes	Yes	Yes

## Support & Information

### Auto-Angling™ Technology

The Auto-Angling™ system senses the weight of the snow and automatically angles to push snow off to the side. Or, if you prefer, you can lock the plow in the direction you want.
